

ICV Lead

We have a fantastic opportunity for an Omani national as ICV Lead based on one of our most prestigious contracts.

You will be working as an integral part of the team with our Operations, Procurement, Commercial, Projects and Supply Chain Partners to drive through initiatives, planning targets and comparing actuals. It's a primarily data driven role that would suit those with at least intermediate MS Excel skills and management of multiple data feeds from different sources.

Key Responsibilities:

- You will work closely with other departments heads to identify ICV opportunities, collect relevant data and provide recommendations. With your support they will identify ICV opportunities for the day- to day operations to ensure that ICV is fully embedded in the operational and business process of the contract, to drive through improvements.
- You will be the contracts focal point on all matters related to ICV, the management of ICV data and reporting.
- As this is a data driven role as the post holder is responsible for maintaining accuracy in the MARS system (Monitoring and Reporting). As a result, this is an active and visible role requiring attention to detail.

Experience Required:

- Experience of managing multiple spreadsheets and understanding contractual obligations relating to our ICV commitment.
- Intermediate to Advanced MS Excel skills are a must for all applicants
- Understanding of OPAL ICV pillars, and requirements as dictated by the contract.

Desired/Required Qualifications

- BSc degree or equivalent, however diploma holders will be considered if the required skillset and experience can be demonstrated fully.

Location of Work

- Muscat

If you are interested in this role and fulfil the requirements above, please send your CV to hr@carillionalawi.com
