

Supply Chain Manager

We have an exciting opportunity for a Supply Chain Manager to join the team on one of our most prestigious contracts. Based in Muscat in the Sultanate of Oman, this position is client-facing, working as part of the on-site Carillion Alawi management team. This is an important role in the successful delivery of the contract requiring excellent interpersonal, management and communication skills.

Ideally, you will:

- Have at least 10 years supply chain experience
- Be degree qualified.
- Have membership of CIPS

Purpose

- To deliver effective procurement solutions to an Integrated Facilities Management contract and functional responsibility for the various workstream and wider business. To improve performance whilst reducing cost and business risks significantly.
- To deliver a better value supply chain by embedding category strategies into the workstreams and focusing on the needs of internal & external customers.
- Business strategy states that supply chain will be delivered through a combination of category management and operational procurement (supply management).
- This role will manage the supply of goods and services across an IFM Contract in order that financial savings and performance improvements are made through a more strategic approach to supply chain management and a more integrated approach with our customers (internal & external) and our suppliers.

Key Objectives of the Job

The specific areas of accountability of the role are as follows:

- Provide supply chain leadership and functional support which is safe, reliable, ethical, and transparent.
- Manage a large, culturally diverse team of supply chain colleagues, including stores & logistics functions.
- Manage significant annual external spend, including budget forecast and contingency reporting.
- Deliver supply chain-related targets in line with overall business objectives.
- Prepare and deliver procurement strategy & process aligned with client and business objectives.
- Lead value management and value engineering exercises as appropriate to align with company objectives.
- Drive innovation & supply chain improvement through the introduction of technology.
- Manage key stakeholder relationships and deliver exceptional customer service to the client.
- Ownership of all procurement-related systems, including necessary modifications and upgrades.

- Manage end-to-end tender process, including negotiations and awards for high-value strategic packages.
- Chair supply chain engagement meetings for key supply chain partners.
- Drive continuous improvement in the supply chain.
- Work closely with finance, commercial & operations teams to align with budgets, forecasts, and service delivery.
- Ensure all procurement activities are conducted in line with Carillion Alawi and client guidelines.

Interested candidates matching the necessary criteria can apply by sending their CV/Resume to hr@carillionalawi.com
